Location: Bengaluru, Karnataka, India

SUMMARY

Dedicated and detail-oriented Machine Learning Engineer with 2 years of professional software development experience. Proven track record in building statistical models, developing natural language processing classification systems, and optimizing machine learning inference pipelines using Python, Scikit-learn, and SQL.

EDUCATION

B.Tech in Computer Science and Engineering

Vellore Institute of Technology, Graduated 2024

GPA: 8.9/10

TECHNICAL SKILLS

- Programming Languages: Python, Java, C++, SQL, JavaScript
- Machine Learning & AI: Machine Learning, Deep Learning, Natural Language Processing, TensorFlow, Scikit-learn, Pandas, NumPy, Matplotlib
- Databases: PostgreSQL, MySQL, MongoDB
- Tools & Cloud: Git, GitHub, Linux, REST API, Docker

WORK EXPERIENCE

Software Engineer / ML Developer

ABC Technologies, Bengaluru

July 2024 - Present (Approx. 2 years software development experience)

- Designed and trained supervised machine learning models using Scikit-learn and Pandas, improving predictive accuracy by 18%.
- Built automated data cleaning and text preprocessing pipelines for incoming document classification.
- Deployed REST APIs using FastAPI and connected services to PostgreSQL database clusters.
- Collaborated with engineering teams using Git, GitHub, and Agile methodologies.

PROJECTS

1. Machine Learning Document Classifier

- Developed an end-to-end NLP classification system using TF-IDF feature extraction and Support Vector Machines.
- Achieved 94% precision on multi-class categorization benchmarks.

2. Customer Churn Prediction Engine

- Implemented XGBoost and Random Forest algorithms using Scikit-learn to forecast subscription retention.
- Evaluated model performance using ROC-AUC, Precision-Recall curves, and cross-validation.

CERTIFICATIONS

- Machine Learning Specialization by Andrew Ng (Coursera)
- Python for Data Science and Machine Learning Bootcamp
